

PALLAVI BHASME

Node.js Backend Developer

☎ +91 9637841265 | ✉ pallavibhasme13@gmail.com | [Linkedin](#) | Portfolio | Github

PROFESSIONAL SUMMARY

Node.js Backend Developer with 6 months of hands-on internship experience building production-ready REST APIs. Proficient in Node.js, Express.js, MongoDB, and MySQL with demonstrated ability to deliver secure, performant backend systems. Experienced in JWT authentication, SQL optimization, and AWS deployment. Passionate about writing clean, maintainable backend code and continuously expanding technical skills.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, SQL

Backend: Node.js, Express.js, REST API Development, Authentication (JWT), CRUD Operations

Frontend: HTML5, CSS3, ReactJS, Tailwind CSS, Responsive Design

Databases: MongoDB, MySQL

Tools & Cloud: Postman (API Testing), Git/GitHub, AWS (EC2, Static Hosting), VS Code

Soft Skills: Team collaboration, task ownership, process adherence, proactive learning, feedback-driven growth

WORK EXPERIENCE

Backend Developer Intern — Netbugs Solutions & Services LLP (Remote)

July 2025 – December 2025

- Built and maintained 30+ RESTful APIs using Node.js, Express.js, and MySQL for an AI interview preparation platform, supporting core product workflows used in production.
- Implemented JWT-based authentication and CRUD APIs ensuring secure, role-appropriate data access aligned with business requirements.
- Optimized SQL queries and API logic, resulting in improved backend response time and application performance.
- Collaborated within a remote team, communicating proactively and delivering tasks within defined timelines.

KEY PROJECTS

StudyNotion — Full-Stack EdTech Platform | MongoDB, Express.js, React.js, Node.js

- Designed and developed backend APIs for user authentication, role-based access control (student/instructor/admin), and course management.
- Integrated RESTful backend with React frontend for dynamic data flow and real-time user interactions.
- Implemented MongoDB schemas and validations for robust data integrity.

Source: github.com/pallavibhasme/StudyNotion

IT Precision — Client Portfolio Website | React.js, AWS, SSL/HTTPS

- Developed and delivered a fully responsive React.js website for a client, handling both development and deployment.
- Configured HTTPS with SSL certificates on AWS, ensuring secure and professional hosting.

EDUCATION

Bachelor of Engineering (B.E.) — Information Technology

Nagpur Institute of Technology, Nagpur

Graduated: 2023

CERTIFICATIONS

- MERN Stack Development — CodeHelp
- Object Oriented Thinking in Python — SP Classes
